

Opportunity: Project Manager

Fluid Solutions, LLC

Location: Birmingham, AL, USA

Travel: Required as project needs dictate

Fluid Solutions, LLC is a 19-year-old global company operating in more than 150 countries worldwide. We are seeking a **Project Manager** to oversee **field-erected tank projects** from award through closeout. The ideal candidate will have working knowledge of tank systems and demonstrated experience managing projects in accordance with contract requirements and customer expectations.

Key Responsibilities:

- Prepare, assist with, review, and approve Requests for Proposals (RFPs) for field-erected tank projects
- Serve as a primary point of contact for client communications and inquiries
- Initiate awarded projects, including contract reviews and project startup activities
- Produce, manage, and respond to all required project submittals
- Coordinate and manage tank manufacturers
- Coordinate and manage field erection and coating subcontractors
- Ensure all onsite field teams comply with project-specific safety requirements
- Order and track miscellaneous tank parts and accessory items
- Manage invoicing, progress payments, and related financial tracking
- Complete project closeout documentation in accordance with contract requirements

Minimum Qualifications:

- Education: Bachelor's degree (4-year) in Engineering, Construction Management, Business, or a related field; equivalent combination of education and relevant experience may be considered.
- 3+ years of experience managing subcontractors on projects valued at \$250,000 or greater, or experience in construction estimating with proven project management success
 - Prior experience managing **field-erected tank projects is a plus**
- Working knowledge of tank systems and mechanical systems
- Strong organizational skills, including planning, resource allocation, and budget management
- Excellent written and verbal communication skills with a focus on collaboration, transparency, and thorough documentation
- Customer-focused mindset demonstrating responsiveness, proactivity, and integrity
- Self-motivated learner with interest in industry advancements and operational improvement
- EM-385-1-1 (10- or 40-Hour) or OSHA 30 certification is a plus
- Proficiency with Mac-based systems is a plus
- Valid driver's license required
